Customer Rules:

Customer Rules:

To edit Customer Rules, log in to your account and click the Customer Rules button (①) or scroll down the page to find Customer Rules Section (①-1). On the Customer Rules page, you will see the following: Payment/ Delivery/ Engineering/ Others (①-2). This is for your general inquiry when you place your order online. However, note that such function is mainly used for general inquiries and will ONLY take effect upon reviewed and approved by our sales team. If a specific request is applied to an individual or a separate order, you are responsible to make a note on the remark column for that particular order at the time you place your order.
